29. GRAS FLAVORING SUBSTANCES: This list of substances will appear in the 29th publication authored by the Expert Panel of the Flavor and Extract Manufacturers Association on recent progress in the consideration of flavoring ingredients “generally recognized as safe” (GRAS) under conditions of their intended use in food flavorings in accordance with the 1958 Food Additives Amendment to the Federal Food, Drug and Cosmetic Act. For more information on FEMA GRAS see “About the FEMA GRAS Program” on the FEMA website.

GRAS FLAVORING SUBSTANCES 29

STATEMENT REGARDING GENERALLY RECOGNIZED AS SAFE STATUS OF ETHYL NITRITE

The FEMA GRAS status of ethyl nitrite (CAS 109-95-8; FEMA 2446) under the conditions of intended use as a flavor ingredient was reviewed by the FEMA Expert Panel. After reviewing the available information relevant to the FEMA GRAS status of ethyl nitrite, the Expert Panel concluded that additional data are required to support the continuation of GRAS status. Such data should include testing for vascular effects and GLP-compliant in vitro and in vivo genotoxicity testing of ethyl nitrite. Until such studies become available for review by the Expert Panel, the flavor ingredient ethyl nitrite has been removed from the FEMA GRAS list.
