

RECENT PROGRESS in the Consideration of Flavoring Ingredients Under the Food Additives Amendment

6. GRAS Substances

BERNARD L. OSER and R. A. FORD

IN KEEPING with previously outlined policies of the Flavor and Extract Manufacturers' Association, this paper reports the latest results of evaluations of GRAS (Generally Recognized as Safe) status of a number of substances.

These evaluations were carried out by an independent panel of experts chosen as described before (Hall and Oser, 1961) and consisting of: Dr. Anthony M. Ambrose, Medical College of Virginia; Dr. Horace W. Gerarde, B-D Laboratories; Dr. Maurice H. Seevers, University of Michigan; Dr. Howard C. Spencer, Dow Chemical Co.; Dr. Frank Strong, University of Wis-
